About the Grant

The North Portland Trust Fund (NPTF) Placemaking Grant is funded through mitigation funds generated from the Portland International Raceway (PIR) events requiring a City of Portland noise variance permit. IndyCar's return to PIR in 2018 brought the the first major contribution from a noise variance permitted event in over a decade and reactivated the trust fund as a grant program.

Projects under the Placemaking Grant will increase connections people have to each other and the places they care about; engage historically marginalized and/or underrepresented communities; and sustain those already involved and/or strengthen existing programs.

Additional details on the NPTF and the Placemaking Grant can be found at npnscommunity.org/fund-my-project/local-funds

Interested in joining the Placemaking Grant Selection Committee?

The North Portland Neighborhood Services (NPNS) is seeking five to seven individuals to commit to a 45-day period to review and select projects that meet the criteria of the Placemaking Grant application.

As a grant selection committee member, you'll be able to provide neighborhood and community organizations with the opportunity to improve the quality of life for residents of each neighborhood. This is a wonderful opportunity to gain knowledge and experience related to the grant writing and the review process, learn what makes a fundable grant and support grassroots projects in your neighborhood.

NPNS hopes to create a diverse committee whose members come with a wide range of experiences and backgrounds. As well, individuals affiliated with a current grant

application are eligible to serve on the selections committee, but will not be able to vote and/or discuss the related application.
